

NME1854 & FME2404 SERVICE PARTS

This parts list contains the service parts and wiring diagrams for this model.
Water cooled condensers changed between the A and B series.
Check the model number in question to be sure that it is applicable to this parts list.
The compressor changed in 2012 from an RS type to an RST type.

NME1854 & FME2404 SERVICE PARTS

Compressors and Starting Components

RS70 Compressor (example **RS70C1E-PFV-213**), used until mid June 2012. Refer to this parts list for compressor service parts on units manufactured before serial number 12061320011941.

18-8768-22	Compressor 208-230/60/1
18-1901-54	Start Capacitor, 60 Hz
18-1902-45	Run Capacitor, 60 Hz
18-1903-33	Potential Relay 60 Hz
	Overload is internal
18-8768-24	Compressor 208-230/60/3
	Overload is internal
18-8772-26	Compressor 230/50/1
18-1901-53	Start capacitor, 50 Hz
18-1902-53	Run capacitor, 50 Hz
18-1903-29	Potential relay, 50 Hz
18-8772-21	Overload

Note: Replacement compressors include a new dryer, and single phase 60 Hz replacements include the starting components.

Because the RST compressor is not an exact replacement for the RS, the kits below include the tubing and starting components needed to install the RST compressor in place of the RS.

RST70 Compressor, (example **RST70C1E-PFV**) use began with serial number 12061320011941. Refer to this parts list for compressor service parts on any unit after that serial number.

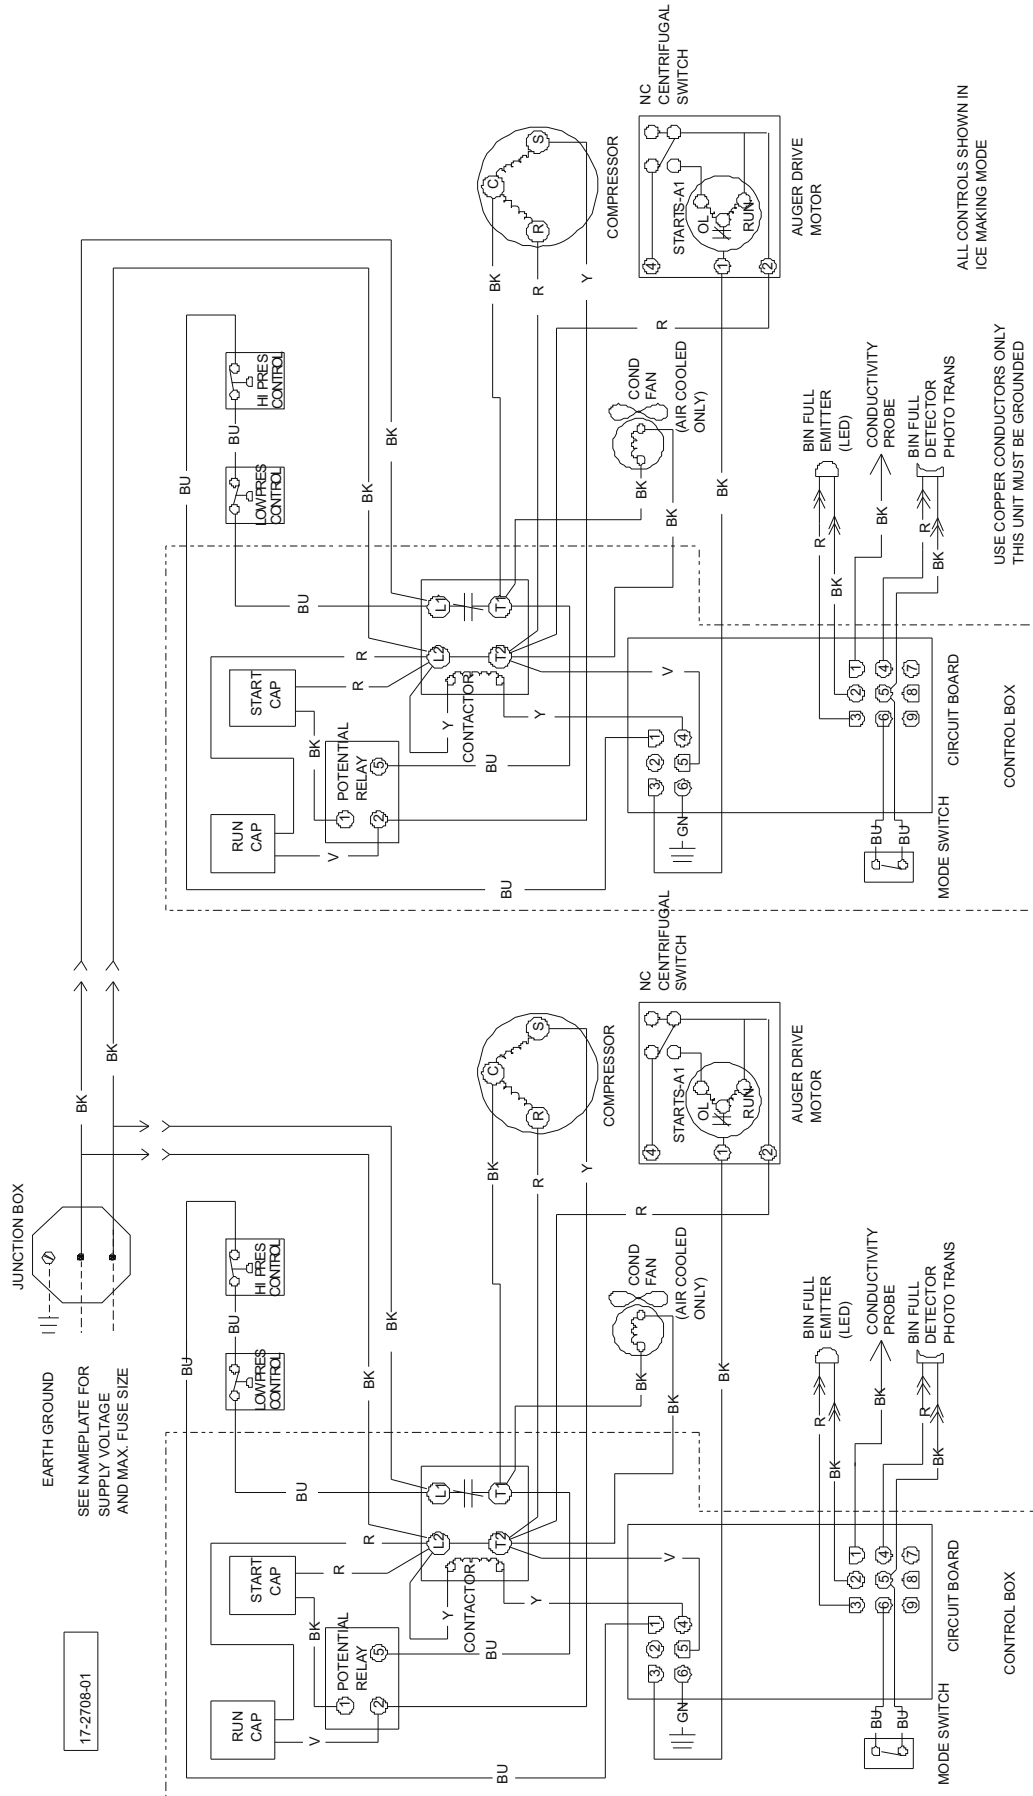

18-8955-22	Compressor 208-230/60/1
18-1901-20	Start Capacitor, 60 Hz
18-1902-67	Run Capacitor, 60 Hz
18-1903-54	Potential Relay 60 Hz
	Overload is internal
18-8955-23	Compressor 208-230/60/3
18-8955-53	Overload

Note: Replacement compressors include a new dryer, and single phase 60 Hz replacements include the starting components.

No 50 Hz RST compressor was used in production. Continue to use 18-8772-26 as a replacement for 50 Hz compressors in these models.
