

Set up

Always clean unit thoroughly before each use.

- Place bottom panel on top of right and left leg flange. Secure panel with 4 feet screws and hex cap nuts.
- Attach mounting bracket panel on front of stand, using 1/4" screws in two center holes of panel and 5/16" screws for all remaining holes, secure with hex cap nuts.
- Place drip tray cover on the drip tray.
- Place the drip tray on the bottom panel.

Cleaning

After use daily, clean unit per the following instructions:

- Wash with dish washing detergent and warm water, rinse thoroughly.
- Do not use abrasive cleansers, scrapers, steel pads, steel wool, or other cleaning tools that can scratch surfaces.
- Sanitize parts following your local sanitization requirements.
- All parts in contact with food must be sanitized.
- Allow parts to fully air dry after sanitization.
